

Transform Your Workplace with VirBrix Environmental Inspections

Ensure a Healthy, Safe, and Sustainable Workspace

Unlock the potential of smart building technology with VirBrix's comprehensive environmental inspection services using our autonomous, digital twin robotics solution. Leverage our AI-powered platform to gain real-time insights and actionable recommendations for maintaining optimal environmental conditions across your facility.

Reduce Energy costs by 10-40% using Energy Savings and Sustainability Incentives

Source: *U.S. Department of Energy, Energy Efficiency and Renewable Energy Division*

Reduce Absenteeism by 10-20% and **Increase Productivity by 10%**

Source: *World Green Building Council "Health, Wellbeing, & Productivity in office"*

Lower Accident Rates by 20-40% and **Reduce Insurance Premiums**

Source: *Occupational Safety and Health Administration (OSHA)*

Why Choose VirBrix?

Simplicity and Agility:

Access your space data in less than a week, with our fast setup and flexible package options.

Cost-Effective:

Our plug-and-play solution does not require the installation of any sensors or Wi-Fi.

Accurate, Autonomous Data Collection:

Reduce the risk of human error and ensure consistent data capture by scheduling the VirBrix mobile robot to follow a consistent inspection route.

Comprehensive Reporting:

Receive detailed reports on air quality standards, temperature variations, and occupancy data, ensuring your facility meets all health and safety regulations.

Key Features:

Indoor Air Quality Monitoring:

Continuous assessment of air quality to detect the presence of VOC gases, CO2 levels, and particulate matter.

Temperature and Humidity Regulation:

Automated adjustments to maintain ideal temperature and humidity levels, enhancing comfort and reducing energy costs.

Lighting and Noise Level Optimization:

Monitor and adjust ambient lighting and noise levels to create a more productive and comfortable work

Benefits of VirBrix Environmental Inspections:

Health and Safety:

Ensure a healthy workplace with reduced airborne risks and enhanced employee well-being.

Operational Efficiency:

Automate and optimize building operations to save on energy and maintenance costs.

Sustainability:

Support your green building initiatives and improve your sustainability credentials.

Support Back-to-Office Policy:

Data-driven strategies for effective workplace management.

Package Options:

	Proof of Concept	Initial Deployment	Seasonal Inspection	Subscription
On-site data collection	1-2 days	1 – 2 weeks	8 weeks (2 weeks per Quarter)	24/7/365
Approx Space (sq ft)	5,000 – 50,000	5,000 – 100,000	5,000 – 100,000	5,000 – 100,000
Inspection Report and Dashboard	Dashboard	Report & Dashboard	Report & Dashboard	Dashboard
Professional Services support	2-3 hours	15-20 hours	15-20/Quarter	Per contract
